		SME Bank	USD80 – USD90/bbl	USD75 – USD85/bbl

OVERALL

- As guided by SME Bank's in-house expectation, Budget 2025 is an **expansionary budget** (RM421.0 bil, up 3.3% YoY from 2024's RM407.5 bil) – **driven by OPEX** (4.2% YoY) while DEVEX was unchanged (0% YoY) compared to 2024's revised budget.
- Govt's revenue is expected to increase by 5.5% YoY to RM339.7 bil in 2025 (2024e: RM322.1 bil) propelled by companies' income tax (8.1% YoY) and SST (14.2% YoY).
- As revenue increased at a higher pace than expenditure, **fiscal deficit** is targeted to **reduce further** to 3.8% of GDP in 2025 (2024e: -4.3%). However, this did not meet the government's deficit target of 3.0% to 3.5% by 2025, which was set out earlier under the 12 MP's Mid-Term Review.
- Govt's **macroeconomic forecasts** for 2025 are **consistent with SME Bank's**. In particular, our GDP growth forecast of 4.5% - 5.5% next year are an exact match.
- Key overall takeaways:
 - More progressive** sales and services tax (SST) effective 1st May 2025
 - to impose on **nonessential goods** such as imported premium items
 - broaden SST** to include business-to-business (B2B) commercial services and financial transactions
 - Introduce **dividend tax rate of 2%** on dividend income >RM100k received by individual shareholders from assessment year 2025.
 - Implement **RON95 subsidy rationalisation in mid-2025** – 85% of consumers will not be affected.
 - Raise minimum wage to RM1.7k** per month (current: RM1.5k) effective from 1st Feb 2025 – businesses with <5 employees can postpone it for six months
 - Education and health subsidies to be reduced** for T15
 - Introduce **carbon tax on iron, steel and energy industry** by 2026.
 - Increase allocation for Rahmah Cash Contribution (STR) and Rahmah Basic Contribution (SARA) to RM13 bil (2024: RM10 bil).

Allocation by Ministry (RM bil)

An Agency Under

Note: Some details (Budget Touchpoints) are still not released by MOF and are not made available as of now.
