Commodity Murabahah Term Financing-i (CMTF-i)

CMTF-i is an Islamic term financing for fixed asset acquisition and/or working capital and is calculated based on a fixed or flat or variable rate basis.

2. What is the Shariah concept applicable?

Commodity Murabahah via Tawarruq

Commodity Murabahah is Murabahah (cost-plus-profit) via Tawarruq arrangement. A Tawarruq consists of two sale and purchase contracts. The first involves the sale of a specified commodity (such as crude palm oil) by the Bank to the Customer on a deferred basis at a cost-plus-profit price over an agreed period of time. Subsequently, the Customer will sell the same commodity to a third party on a cash and spot basis.

Wakalah

Wakalah refers to a contract where the Customer, as principal (muwakkil) authorizes the Bank as his agent (wakil) to perform a particular task on matters that may be delegated, with or without imposition of a fee.

In the Tawarruq arrangement, the Bank acts as an agent to purchase the Shariah-compliant specified commodity (such as crude palm oil) from himself on behalf of the Customer, and subsequently acts as an agent to sell the same commodity on behalf of the Customer to a third party (i.e. Bursa Suq Al-Sila) for commodity trading services.
